GENERAL INFORMATION

The Sale will commence at 12:00. The sale is held under the auspices of the British Charollais Sheep Society and all sheep will be sold subject to the Rules and Conditions of the Society. Copies are available from the Society or Auctioneers and will be displayed at the sale. All sheep will be sold in guineas (105 pence) and strictly in catalogue order. All sheep to be sold singly.

ALL FEMALES offered for sale are warranted not to be in lamb. Should the situation arise that a ewe proves to have been in-lamb at the time of the sale, then if within fourteen weeks after the day of sale a female sheep warranted not in lamb as aforesaid proves to be in lamb and within sixteen weeks after the day of sale the purchaser gives to the auctioneers written notice supported by a certificate signed by a veterinary surgeon such female sheep has been proved to have been in lamb then if the sheep lambs naturally at a date which proves it to have been in lamb at the date of sale either the purchaser may return the sheep and her lamb if any to the Vendor or at the sole option of the Purchaser the Vendor shall pay to the Purchaser as and for ascertained and agreed liquidation damages to cover all expenses depreciation in value and other damages whatsoever a sum equal to 25% of the purchase price of the sheep.

All sheep will have been subject to **INSPECTION** by an official Society Inspector.

MINIMUM SELLING PRICE – General minimum selling prices will apply to all sales held under the auspices of the Charollais Sheep Society. The minimum selling price for empty ewes is 180gns and shearling ewes is 200gns

The sheep are from a **MAEDI VISNA ACCREDITED & SCRAPIE MONITORED FLOCK** registered with the SAC Sheep & Goat Health Scheme.

PEDIGREE CERTIFICATES will be available at the Auction Mart Office on the day of the sale, together with Scrapie Genotype Certificates. All sheep in the sale are Full Pedigree Registered.

Would prospective **PURCHASERS** please have their CPH Number ready to supply to the auctioneer at the time of payment. No movement license will be issued without this information.

THE SCRAPIE GENOTYPE results listed in this catalogue are guaranteed to be correct. Whilst the Society will make all possible effort to provide purchasers with the correct information, they can in no way be held responsible for any error or omission of information.

The breeding information, comments and photographs for sheep in this catalogue have been supplied by the vendor. While every effort has been made, the Society cannot be held responsible for any inaccuracies or omissions.

FOREWORD

They say “time flies” and as we prepare for our Coral Celebration sale on the 12th June, you really start to wonder where it goes. In planning this production sale, we have used the same philosophy as ever, to offer all our very best sheep in a condition that will allow them to flourish in their new homes. Included are a lot of sheep it really pains us to sell, but hopefully they will find new homes where they give as much pride and satisfaction as we have enjoyed in the 35 years working with the breed. We totally believe Charollais have a lot to offer the sheep industry being easily born, quick growing and naturally fleshed – what more could you want?

At Dalby we have tried to develop our flock to maximise those traits through the use of both performance recording and skilled stockmanship. The results of which will be available on June 12th. In our selection are sheep to suit all requirements, whether that be potential show winners, top performers, great breeders and honest hard working flock ewes. Quite simply whether a new or established breeder, whatever your budget or ambition, there will be something for you. Over the years our sheep have been successful in a wide variety of other flocks for their new owners which is something that has given us a great deal of satisfaction. We feel confident the sheep available in this sale will do the same again, given the standard of sheep in the flock at present.

As we celebrate 35 years of breeding Charollais please feel free to join us, where you will be assured of our best attention. A huge thank you to the team at McCartneys and everyone involved in the preparation for this sale and we wish any fortunate buyer the very best with these sheep.

***For any further information pre-sale please contact Charles on:
07836 385139.***

Charles and Helen Sercombe

MANAGEMENT – PRACTICAL STUFF

We’ve always looked after the sheep to the best of our ability and use the mantra “plan – protect – prevent” when it comes to health issues especially. Therefore, we are on the Heptavac P+ system, vaccinate for Enzootic and Toxoplasmosis abortion, worm lambs as needed using fecal egg counting, fluke drench once a year and now rumen bolus for trace elements.

We try to run a grass-based system (bit of a joke this year!!) with the shearing ewes outwintered on a dairy farm and now receiving limited concentrate since shearing at the end of February.

EXPORT TO THE EU

Due to vagaries of Brexit and the UK becoming a third country for the purposes of export to the EU, it means that sheep cannot go directly from the market for export. However, if any sheep are purchased for export, we will happily take them home and look after them until such time as its possible to move them. We will arrange all paperwork and veterinary inspections (at our cost) and try to facilitate movement to the best of our ability. Please feel free to discuss with us if you are interested.

One of the major developments from the pandemic has been the use of on-line bidding and we are pleased that this will be available for the sale. We welcome enquiries ahead of the sale for those wishing to view before bidding online.

DALBY FEMALE FAMILIES

We have always placed great emphasis on our female families, trying to develop lines that consistently produce above average animals, whether that be for the show ring, performance figures or as flock ewes. Over time some lines flourish while others haven't, as the breed changes and the requirements of the marketplace move, be that pedigree or commercial.

Since our last sale some 10 years ago some families have continued to perform and are still influential. Most notable among these are the Champagne/Oprah, Hyacinth and Greta/Matilda lines. Coming to the fore since then are the Rhapsody, Olive, Lightning/Jessica and the recently introduced Foulrice Tootsie families.

But be assured whichever family, whichever ram, we have always bred our sheep with great care and attention, the aim being to improve from one generation to the next.

STOCK RAMS OVER THE YEARS

If your female families are the backbone of your flock, then your stock rams are definitely the other 50%. Ever since establishing the flock in 1986 we have strived to use the best rams we could, often sharing with other breeders to increase our spending power and access the rams we wanted.

In the early years we joined a syndicate to gain access to Crogham Nugget, who won the Royal Show, then jointly purchased Neil's Chancellor, who became the most influential ram as we developed the flock in the early years. In the mid-nineties, we bought and developed Castellau President and Carnhill Commander who worked well together.

The next major influence was Arjane Master Mac, who bred consistently over a number of years and left us with Dalby Blaster Bates, the sire of Dalby Champagne.

We then saw and admired a well grown, powerful ram lamb called Rutland Ensign and after a long and tricky negotiation we managed to purchase a half share from Richard and Mary Tulloch, which proved to be a good decision as the Ensign progeny out of Master Mac ewes were fantastic.

In 2006 we were fortunate to jointly purchase Rockvilla Golden Promise with Richard and Mary. Without doubt, this has been one of our best decisions in the flock's history with Golden Promise cementing himself as one of the most influential rams the breed has ever seen. Golden Promise sired many breed and interbreed champions at all the major UK shows and numerous high priced and sale topping sheep including the 7000gns Dalby Jezabelle.

In 2016 we purchased Foulrice Regis and in 2018 Edstaston Tulloch, both are breeding well and their profiles are described in more detail later.

Along with the purchased stock rams we have never been afraid to use homebred rams, feeling that extra knowledge about their background increases the chances of success.

We started with Dalby Atomic, who was the sire of Dalby D'Artagnan, a prolific winner in the show ring. Atomic's dam was the foundation of the family now headed up by Dalby Rhapsody, a family introduced when we established the flock in 1986. D'Artagnan was the sire of Dalby Galactico, our first reference ram in the Sire Reference Scheme. This line was unique at the time in possessing both high growth and deep muscle. We then combined Galactico with Dalby Hyacinth to produce Dalby Kracked-It, who has performed well across a wide number of flocks siring both prize winners and top performance. His muscle depth EBV is still in the top 1% of the breed.

Dalby Lazelle, a Dalby Jezabelle son, bred good flock ewes and sired the 6500gns Dalby Malachite. Dalby Next GT came about by combining Castelleau Lord of the Manor with Hyacinth's best Golden Promise daughter. Next GT was a tremendous lamb being interbred champion at Derby Show, but more importantly he sired Dalby Ranieri, an influential ram in the flock at present.

DALBY RANIERI 16PE04907

You know you have got a good one when they stand out from the crowd at an early age and this was certainly the case with Ranieri. His ultrasound and CT scanning results gave him the highest index of ram lambs in 2016 and after extensive use in pedigree and commercial flocks (through being the linkage ram in ram compare), he is still a top 5% performance ram some five years later.

Combined with top performance comes top type and Ranieri also stood breed champion at Newark and reserve interbreed at the Royal Three Counties in 2017.

But it is the consistent quality of his progeny that really make him a successful ram. He has sired interbreed winning show sheep and many high priced rams including the 5100gns Sherman, the 5600gns Tuilagi and the 3600 gns Tarquin, all sold to other leading breeders. In all, 11 Ranieri rams have sold to average £2450 across three premier sales.

FOULRICE REGIS 16DG06349

Regis was initially selected for his pedigree, performance and super type, but we were particularly drawn to the clean fleshing and super skin. These traits have consistently been passed on to his progeny, leaving deep and long loins and tremendous wool quality. In 2017 he sired three lambs to average 2100gns at the Premier Sale including the 3500gns Super Trooper, who is now one of the breed's top rated stock rams with an index of 367. His flock ewes have developed into deep bodied, hard working mothers with plenty of flesh that are breeding exceptionally well. They include the outstanding Tutti Frutti (Lot 50).

EDSTASTON TULLOCH 18TG00737

Purchased privately from Robert and Jeanette Gregory, he is having a major influence on the flock at present. When looking at the progeny of Shockin', we felt Tulloch was the standout lamb, possessing the width and power we were looking for. This combined with great performance figures led to a deal being struck.

He has certainly lived up to our expectations, leaving a real stamp to his progeny and is probably the best "ram" breeder ever used in our flock. The commercial shearlings drew great praise last year and this year's crop are even better. His females have tremendous fleshing, great skins and from what we observed in the lambing shed, they are great mums too. The shearling ewes by him are to our mind a feature of the sale, with many fit to grace any flock.

SHOW SUCCESS

A typical interbreed group of three featuring Dalby Ranieri, Dalby Ripple and Dalby Rhapsody.

We have always enjoyed showing sheep and it has been an important part of our lives since 1989. Throughout the years we have been fortunate to have a great deal of success as we have continued to promote both our flock and the Charollais breed.

We like to show and to compare our sheep to those of fellow breeders, but perhaps more importantly in these difficult times, we have always valued the 'social side' to showing. The opportunity to compare thoughts and socialise in a relaxed atmosphere post judging is something we have truly missed and look forward to the day we can resume in the future.

We have had many highlights in the show ring, but being the first Charollais flock to win the coveted champion of champions at the Royal Welsh Show along with repeating this three years later is one that will remain strong in our history books. We have also won the Royal Show breed championship three times, as well as securing breed championships at other major shows like the Royal Three Counties, Royal Bath and West and Great Yorkshire, proving our sheep can compete at the very highest level. In fact, when researching for this catalogue, we realised that we have now won more than 100 breed or interbreed championships and in 2018, took the breed title at all seven shows attended, including the Royal Welsh.

We would also like to think there are several potential future winners included in this sale!

Top right picture: A prolific show winner for us, Dalby Champagne.

PERFORMANCE RECORDING

We began performance recording in 1990 and ever since have used it to help make informed decisions about the sheep we keep. Whether to plan mating's, sort out culls or decide which rams to use in our large commercial flock, the use of figures aids us in our work.

Our belief in the benefit of performance recording continues, in fact we are convinced it will become more important in the future, as Government policy dictates a necessity to increase efficiency to drive sustainable Agriculture.

Performance figures also help us to sell rams to other flock masters, by being able to provide the most suitable genetics for their particular needs.

Our goal is simple, we try to increase growth, increase muscle and move fat levels to zero in every mating we make, all while trying to produce superior type, i.e. what we call "Balanced Breeding". The result of this approach has led to an average terminal sire index of 278 (i.e. top 10%) across all the homebred sheep forward in this sale.

The success of this is borne out by the fact that the flock has been at the top end of the breed performance charts for a large number of years. But more importantly to us is that our sheep go away and perform in other environments without a significant change in their figures. Hopefully demonstrating not only the robustness of the sheep, but the recording behind them.

Signet Performance Recording

SEMEN AUCTION FOR CHARITY

To conclude the sale, we have decided to offer for sale 8 doses of semen, out of the 16 remaining from our legendary stock ram Rockvilla Golden Promise. Undoubtedly, one of the breed's great rams we have lambs on the ground this year that display that tremendous skin and natural fleshing we all crave.

Over the years we have been continually approached by fellow breeders wanting to purchase Golden Promise semen and have always said no. This was to be fair to everyone and not knowing what value should be placed on it. However, this seems like a good opportunity to make available half the remaining straws, with the proceeds going to RABI, an organisation that does tremendous work in the farming community and has benefitted many friends and family.

LOT 121 4 doses of Rockvilla Golden Promise 0VV6049
